GROUND FLOOR & MEZZANINE

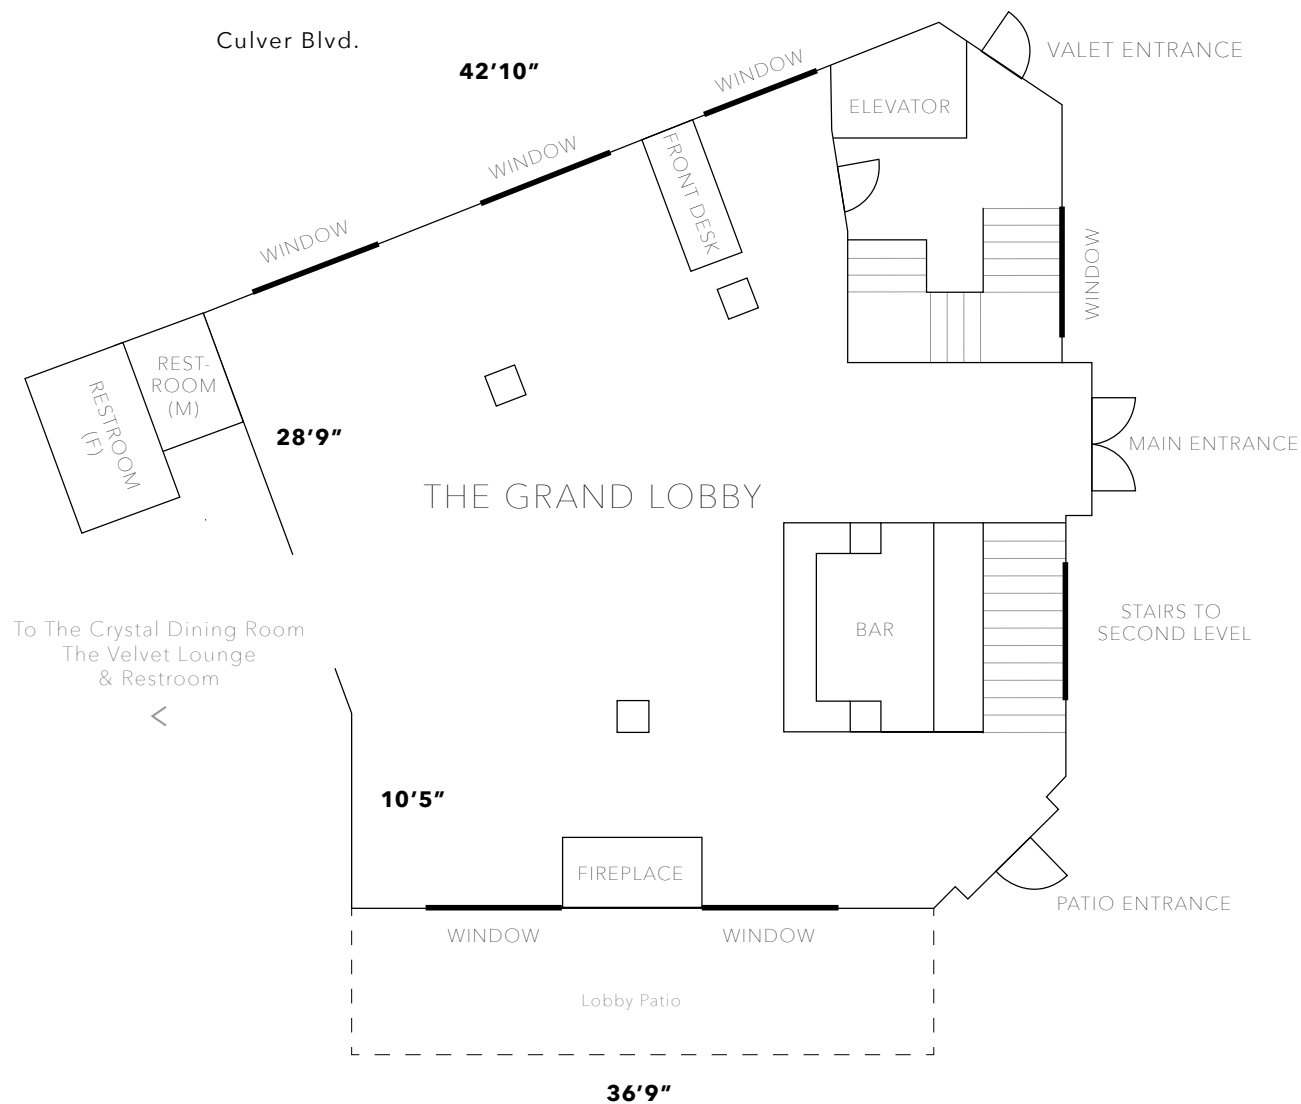

THE GRAND LOBBY

The Grand Lobby transports us back in time with its Renaissance Revival elegance, twenty-foot ceilings and tall arched windows.

Enjoying almost a century of history and grandeur, The Grand Lobby's tastefully curated design strikes the perfect balance between classic and modern. Impressive in scale with an intimate ambiance, it can easily transform from a regal hall into a cozy living room. A stately bar, elegant fireplace and just the right mix of vintage and contemporary pieces, create an exceptional setting for small or large parties. This iconic space is the heart of our hotel and also home to curated nightly live jazz performances.

High Ceilings & Shimmering Chandeliers

This elegant space located on the ground floor next to The Grand Lobby makes for an impressive backdrop for seated events, lively dinners, chic cocktail parties and intimate wedding ceremonies. High ceilings lined with crystal chandeliers play a dramatic counterpoint to the cozier space in the rear. An original black and white checkboard marble floor is juxtaposed with a communal farm table, perfectly in keeping with the hotel's signature classic-meets-contemporary décor. Enjoy the Crystal Dining Room's private entrance which opens up to our outdoor garden patio.

THE GALLERY LEVEL

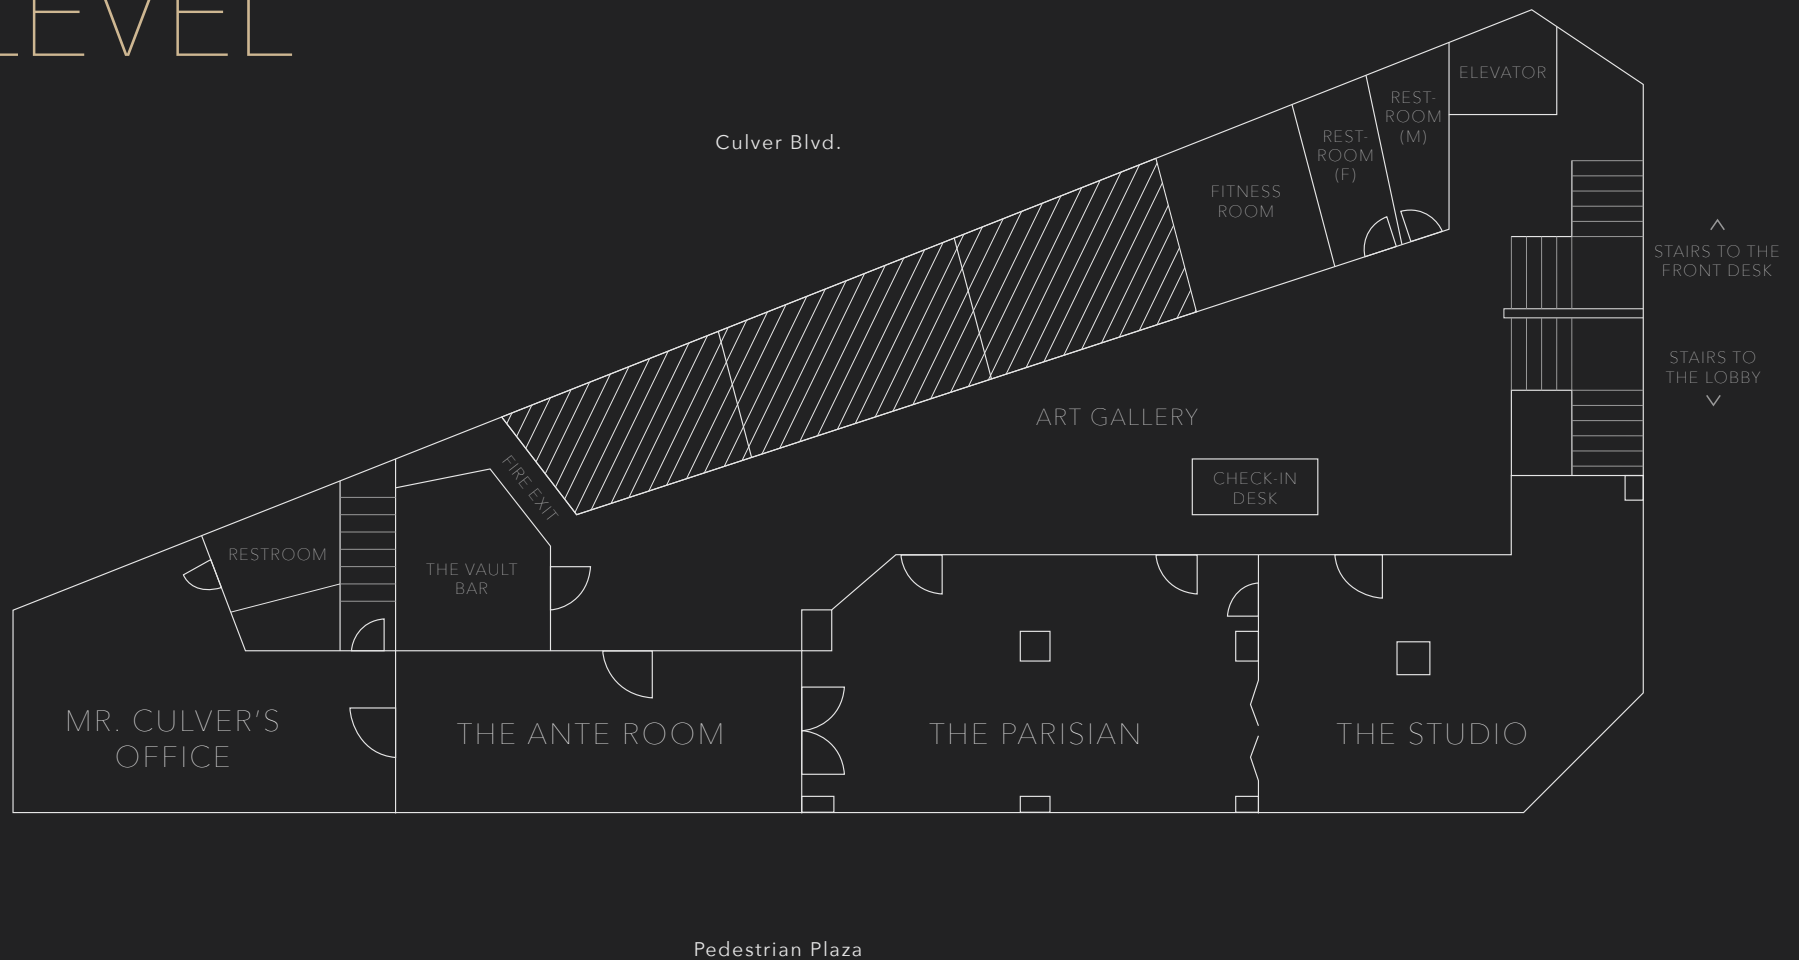

The Studio, The Parisian & Mr. Culver's Office

Inspired by turn of the century Parisian loft apartments, these bright and elegant event spaces seamlessly combine era-centric details with contemporary sensibility. 'Wedding cake' moldings, crystal chandeliers and crisp white walls are anchored with reclaimed wood herringbone floors. Large French windows allow for an abundance of natural light, fresh air and a view of the Downtown Plaza's iconic Lion Fountain. Choose from three unique rooms or open the connecting doors to create one large space.

In-house amenities include wireless internet, projection screens and select furniture. Enhanced audio visual equipment and specialized decor may be arranged.

Our in-house Art Gallery and The Vault Bar are adjacent to these event rooms and are available as additional areas to complement your event.

THE GALLERY LEVEL

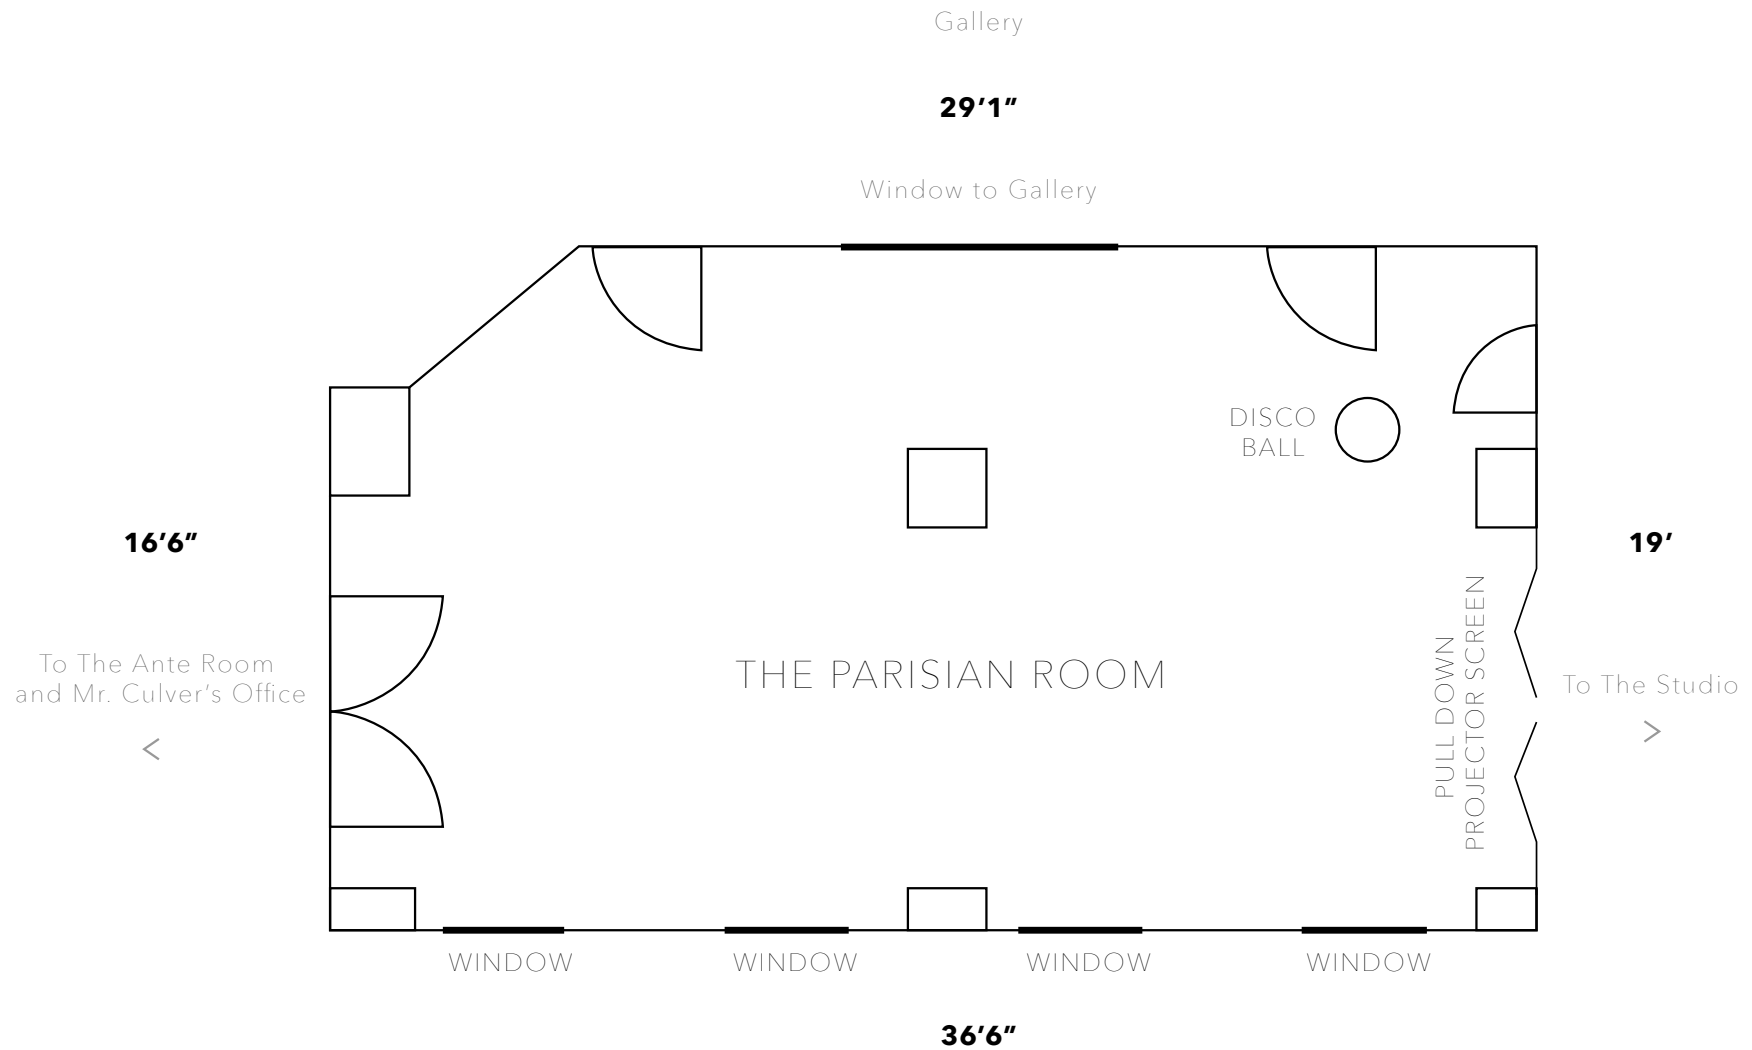

THE PARISIAN

Bright, elegant, vintage

As our largest and most versatile space on The Gallery Level, The Parisian room is wonderful for presentations, buffet luncheons, cocktail parties and art shows. Directly connected to Mr. Culver's office on one side and The Studio on the other, there are endless possibilities and layouts when planning your event. Additional amenities include wireless internet, a projection screen and even a disco ball.

MR. CULVER'S OFFICE

& The Ante Room

With an unusual layout and loads of charm, this historic room, once Harry Culver's original office, sits strategically at the tip of our architectural flatiron. Featuring a classic black and white palette, French windows and original hand-milled coffered ceilings, Mr. Culver's Office is perfect for smaller, more intimate functions. From boardroom meetings to creative workshops or photoshoots, this iconic room can also be used as a private area for brides and their ladies-in-waiting as they prepare for the big moment!

The Ante Room is an ideal area for food, beverage or registration set up and also connects to the elegant Parisian Room, opening up the possibility for a larger layout if needed.

THE VAULT

Pop-up Bar

Designed into the building's original plan by our City Founder, The Vault's thick concrete walls, rebar grid and original metal door transport us back to another era. The tiny room makes for a hidden surprise and surely must be full of stories. Mr. Culver's personal safe was large enough to accommodate precious film reels, documents and possibly bars of gold...

Today, The Vault has been cleverly reinvented as a fun pop-up bar for larger functions held on the Gallery Level.

ART GALLERY

We Love Art!

Art, like music, has always been a fundamental part of the Culver Hotel's imaginative spirit. Rotating exhibits add a modern layer to our vintage landmark while connecting us to our creative community.

The in-house gallery often serves as a pre-function or registration area for The Gallery Level events.
