A hat + specialty hat
band + feather + hat
pin/playing cards +
initials (hat branding) for
\$250/ea.

HOW DO WE SHAPE OUR HATS?

Steam temporarily softens the fibers in hats, warming them and making them malleable before stiffening back up and retaining a new shape.

Using steam is a method that dates back to the old Western tradition and beyond, but I have spent years of my life perfecting the folds, curves, and bends in hats to make sure my customers get the best looking hat possible!
