WEDDING DAY COVERAGE

We are there to document genuine moments as they naturally happen. For the majority of the day we stay very hands-off, focusing 100 % on your story. You won't find us asking your friends to recreate moments but you will find us ready to capture those moments before they even happen. During portraits we give plenty of direction, working to bring creative ideas and new photography techniques to make images that are unique. Though we do direct during portraits, we still focus on genuine candid moments to give you honest, natural photos.

ENGAGEMENT SESSION

This is a great way for us to get to know each other. Our goal is to have a fun time while creating the most incredible images we can for you. Sessions are up to 90 minutes, and can be booked on weekdays.

SECOND SHOOTER

Second photographers offer a different visual perspective to tell the story of your day. It also helps when you need coverage in two places at the same time.

ONLINE GALLERY HOSTING

A quick and easy way to not only download your images in full resolution, but also share them with anyone you'd like. Your online gallery will be the first place you receive your final images. The easy-to-navigate interface will allow you to relive your memories as often as you want, and conveniently share them with those important to you.
