# CRAFT & WILLOW

## **Set up and pack out**

Craft & Willow is there for you from the start of your event to the end. We are generally there 2 hours early for kitchen set up, to get our bearings, and touch base with you and yours or your event planner.

Our team is happy to help set up tables, design, or handle any last minute details to help make your day a success.

We will work with any outside rental companies to ensure proper inventory both in and out is accounted for accuracy.

We contract our Front of House team to clear all China/silver/glass at the end of dinner service as well as packing away for rental pick up.

Once all food service has ended we will check with the planner/host if anything else is needed if not our team will be dismissed following clearing of tables
