

A full-page photograph of a couple running on a sandy beach. The woman is on the left, wearing a white wedding dress, and the man is on the right, wearing a white shirt and dark pants. They are holding hands and running towards the camera. The background features a rocky shoreline, palm trees, and a body of water under a bright sky.

Aloha!

I'm [@ANGIEDIAZPHOTOGRAPHY](#) an afro Latin Sunshine lover & smile maker!. Homesteading in the amazing Kingdom of Hawai'i and Passionate about capturing stories of love and crossing paths with authentic souls for the last 14 years.

I am a Mother, artist, creator, plant obsessed, dog & cat lover, well as activist and mental health advocate.

I live for color and the absence of it, color talks to me like poetry to a poet, together with textures is what takes my breath away. My delight is to find color and emotion in the most beautiful way to tell one of a kind love stories. From an amazing and adventurous barefoot elopement to a magnificent destination wedding i will travel far and near to document your story.

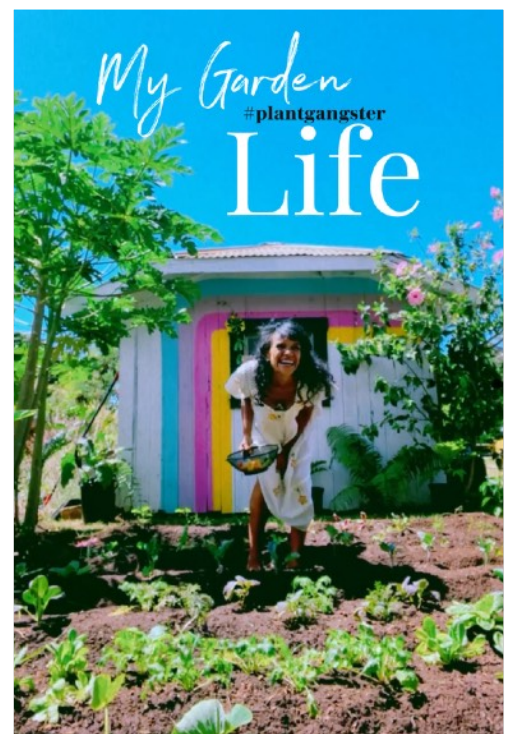

I take inspiration from LOVE. I want to capture the most authentic part of your heart for the world to see. From the first click till the hours and hours tearing behind my desktop on each single frame. An endless romantic. Every little detail of your perfectly dream day is as important to me as it is to you. I'm just want to be involve in each process that makes your amazing day last forever in my photographs.

Let your photographer fall in love with you. let them romanticize the shit out of you. Let them capture you like a close friend or a lover or a adoring parent. Great photography requires vulnerability and a willingness to be seen as an imperfect and fully present human.

-K.S.

Clients Love

"I have a lot of friends who had a lot of good things to say about their photographers but I literally want to be Angie's best friend! I wish I could just hire her to follow me around and take our pictures of my life and keep me entertained! Anyone reading this has most likely seen her pictures and already knows that every one of her pictures is exquisite and magazine worthy. What you need to

know beyond the fact that you will absolutely 100% love your pictures is that Angie herself is so fun to be around! She's hilarious and disarming which helped my husband relax and actually enjoy himself, she's energetic and acts like a dream wedding guest! The friends of ours that actually made it out to Maui for our destination wedding are already asking for her information for their upcoming weddings (some are not even engaged yet!). I could go on all day about this amazing and talented woman, if your thinking of hiring Angie and like me pictures are the most important part of you day besides actually getting married then look no further!" -Victoria & Flo

"We have partnered with Angie multiple times over so many years of growth together from luxe weddings, to branding shoots, to intimate affairs, to business product captures she really nails it all. We not only recommend her to our bff clients, but we trust, hire and use her services internally as well for our own head shots and behind the scenes as well. Her attention to details in photos is something not many photographers can focus on and the energy she brings is so FUN which is exactly what you want for being behind a camera. The capture of light work she has mastered is so beautiful and we are truly lucky to not only call her a Bespoke BDE BFF (preferred vendor partner) but a true friend as well."

-Ashley from Bespoke Events.

"Angie is a true artist with a genuinely kind soul. She is not only extremely talented but her warm, funny, and cheerful personality brightens your whole day. She is so committed to her craft and goes above and beyond for her clients. My guests, husband, and I were incredibly moved by how much she cared about capturing and creating a wonderful experience for me and my husband. Her genuine and adventurous spirit helped us see the beauty in having rain on our wedding day. Thanks to her, we embraced the rain and had a magical, one of a kind wedding. Our photos were breathtakingly gorgeous. Thank you, Angie!!

We love you!" - Annisa & James

Frequent Questions:

How long in advance do you recommend me booking?

As soon as you know we are a match and you would like to work with me, I only take 4-5 Bookings per month. Most couples book one year in advance to guarantee your date. I can help you with location guidance, timelines creation, vendor recommendations and unlimited calls and messages.

How do I reserve you? Can you "just" hold the date?

The booking process consists of a contract and a 50% retainer payment. And then my entire day is reserved for you!. I do not book more than one event per day, so you don't have to worry about timeline changes affecting my availability of the day. The remainder is due 45 days before the wedding date. If you'd like to arrange installments, please let me know.

If we cancel the booking, do we get the retainer back?

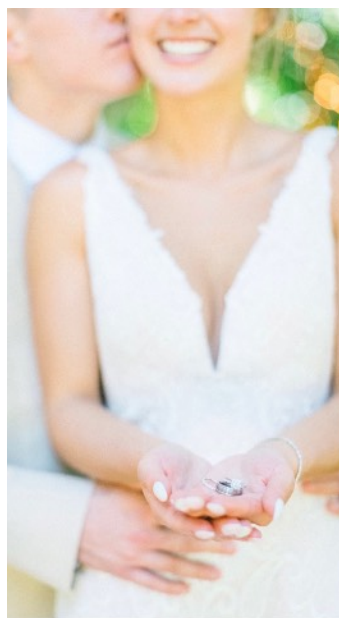

I am always happy to re-schedule at no additional charge up to 24 months after booking, the retainer is non-refundable. The moment you are booked, your date is reserved and I turn other work away. I won't cancel on you unless I die or am about to and I hope you won't cancel on me!

How do you cover a wedding? Can we provide you with a shoot list?

I cover weddings in a relaxed manner that gives space for things to unfold. In order to create emotional, Authentic images it's important that wedding timelines are not rushed in order to fit into the photography coverage time. I will work with potential clients to make sure they have a time line that gives them ample opportunity for optimal images. Shot lists are ok for the family formals and group shots but all other images that are important to the bride & groom should be discussed directly with me. If I know what's important to you then I'll know what to focus on. My aim is to be present and alert in your day so I can document it as it unfolds and a long list of shots is counterproductive to that process.

Can family members or friends take pictures during my wedding?

Yes, with two exceptions! The first is that during the ceremony they remain seated and take their pictures from their seats without standing. This ensures that well-meaning Uncle Joe doesn't try to video the whole thing 3 feet away from you

while you say your vows. Its up to you to let your guests know what is and is not allowed but ultimately if uncle Joe cozies up to you during your ceremony with his camera, he will be in your images and a big part of your wedding story. This is also true for isle jumpers and by isle jumpers I mean those well-meaning friends who get so excited they jump into the middle of the isle to grab the ring shot because it's just so darn pretty and low and behold you will get a professional picture from me of someone's head and not your beautiful moment of exchanging of the rings.

The second exception is during the family formals. When there are multiple cameras or even I phone pointed at the group you will ALWAYS get wandering eyes. Please let your guests know that they can take pictures at the reception or that you will be glad to give them a copy of the family formals when you receive them!

· **Are you available to stay longer for my wedding on a short notice?**

I have always been able to stay longer as of yet. However, it is case by case.

· **How many photos will I get with my coverage?**

Your collection will come with an average of 80-100 /per hour Hight Resolution and artistically edited images. Every session varies as to how many with weather being a factor. This will be but you can always expect at least the amount of images outlined in your collections.

· **Will all the photos I get be edited? Can I get all the raw images?**

All images are edited by myself. I spend a lot of time obsessing over your images and I want you to love them as much as I do. I will NOT give out RAW images, the images you hire me to take are a part of myself and the final product is what I deliver. This is why you are hopefully hiring me!

· **How long will it take unit I have the final images?**

Your online gallery will be ready within 60 days

· **How will I receive my images? What is the online gallery you are mentioning in your packages?**

An online gallery is a sexy way to view your images and an easy way to download your images. It looks cool, it's easy to share and in general it's an all-around good time.

How does the album design process work?

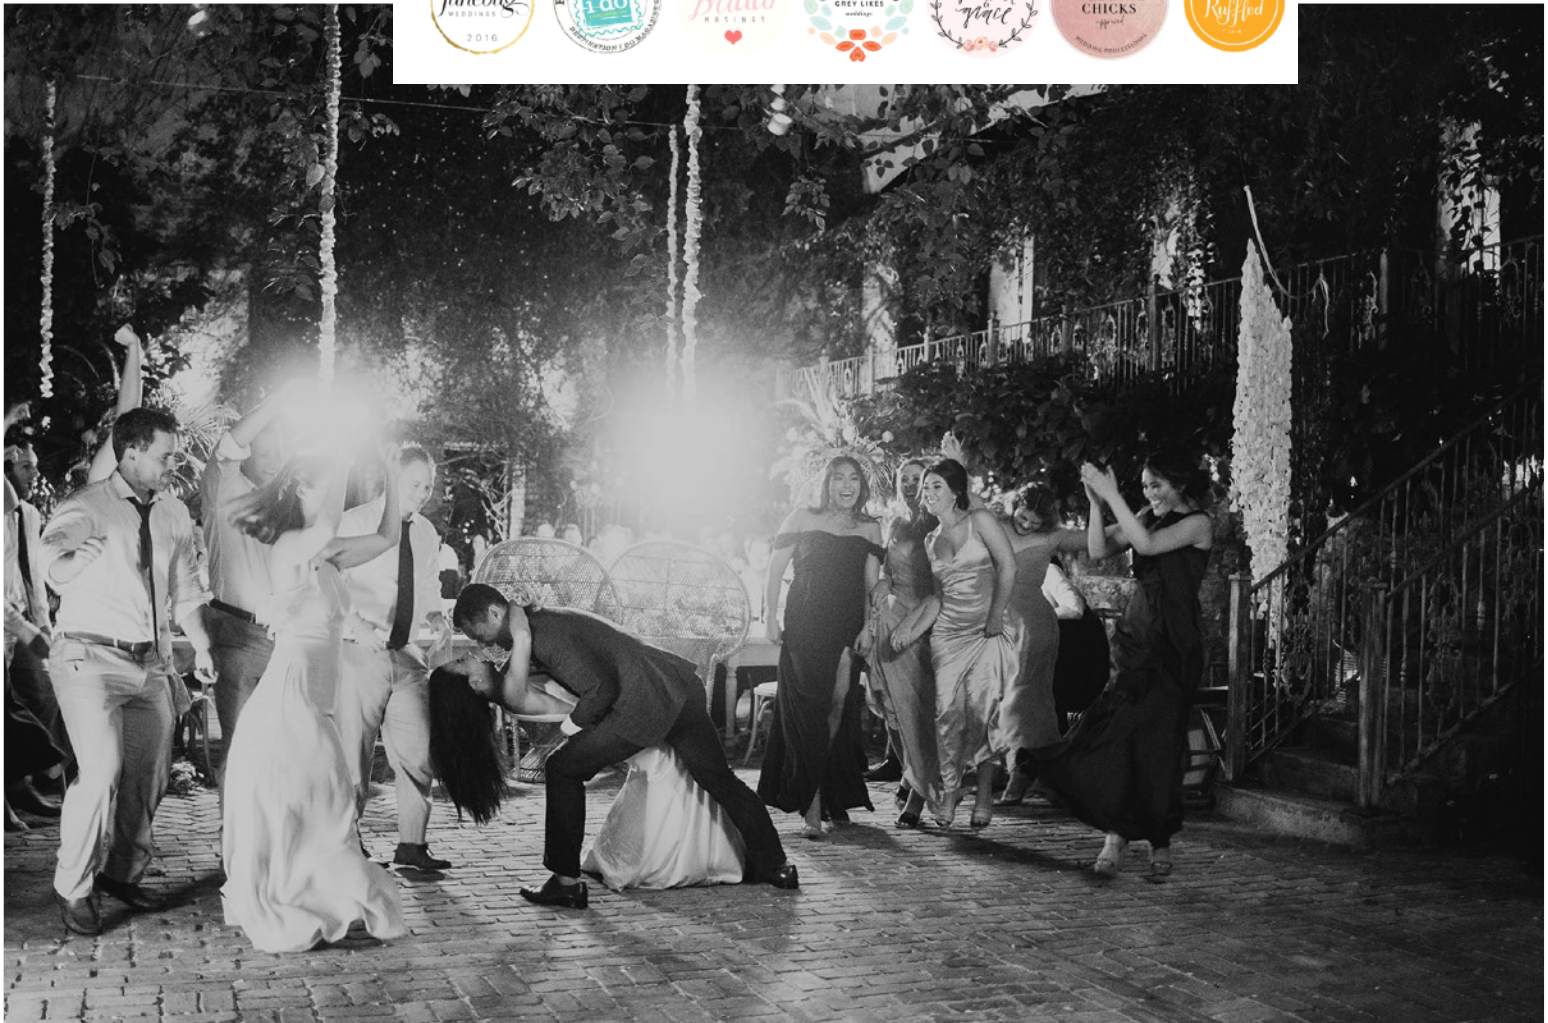

Once you get your online gallery and look through your pictures you can begin selecting your favorite images by simply marking them as a favorite. Once you have narrowed your selection down to your package amount you can shoot me an email and let me know you're ready. I'll start putting together your photo book and voila you will receive a package in the mail with your album that you can keep for ever and ever!

Do you have liability insurance?

Yes, I do and am fully covered and able to work in Hotels or any other venue that requires coverage.

As seen on:

My Why :

[REDACTED] This man right here ❤️. Some people aren't aware that shortly after returning home from Hawaii our world was turned upside down when my ulcerative colitis/Crohn's decided to flare up leaving me in the hospital from Thanksgiving to Christmas. I've been bed-bound, lost most of my hair, my ability to move or leave the house, it's been a nightmare to say the very least. Despite my changing appearance and inability to do most things for myself, my husband never left my side. He has kept me alive. He reminds me that this is all temporary and we will have our life back soon. I couldn't survive without this wonderful person and looking at this picture reminds me just how deep our love is and how beyond blessed I am.

So many stories that touches my heart, and
inspire me to help create a better world.

Angie
