My company held its monthly team building event here this month and everyone had an amazing time! Although we all went home a little sore, the fun we had while we were there was more than worth it. We had the entire arena to ourselves for a very reasonable price, we were able to bring in our own drinks, and the two hours they gave us was more than enough time for our group (eight people) to try every activity once, go back and do a couple of them a second time, and have time to just sit and relax (and catch our breaths). If you are looking for a team building event for your company, I highly recommend Wonderfly Arena!

We had our company Christmas Party here and the venue and staff exceeded our expectations. It was a smooth process from the beginning and they were very flexible and accommodating to our needs! The venue was clean, well kept and the staff was very involved during set up, the party and clean up. They helped to keep things moving smoothly with a large group and everyone really enjoyed their time!

Man oh man. These guys went above and beyond for my event. From first contact until the last minute of my event the staff was all smiles and eager to make my groups time in their facility the highlight of their week. They delivered 1000%. I could not more highly recommend wonderfly arena for their next corporate event or family looking for an outside of the box idea for a party.

Overtime charges will apply to any group that has anyone from their event or any of their own equipment, decorations, or vendor equipment present after the end of the rental time. Any hour or partial hour of overtime will be billed at \$599 per hour or partial hour.

This time will be added to the event invoice and cannot be taken out from the cleaning/damages deposit.

## Event Time

All private events are required to rent at least 4 hours. One of those hours is required to be split between set-up time and clean-up time. Event time is the time that is paid for. Any time that is needed for set-up, clean up, and vendor set-up and clean up must be within the event time.
