About Us

The International Museum of Surgical Science is a distinctive venue available for special events. Events hosted at the Museum offer guests an elegant setting, interesting exhibits, and breathtaking views of Lake Michigan just minutes from Downtown Chicago. Few other venues offer such an opulent setting as our beautifully preserved early 20th-century mansion. The home was built in 1917 for Eleanor Robinson Countiss.

Our Clients

“This is an incredible space! Such a memorable venue – a truly unique space. Could not recommend enough!”

– **Alessandra F.**

“The International Museum of Surgical Science (IMSS) was such a great wedding venue! Phenomenal value and location just off lakeshore drive. Our ceremony in the Hall of Immortals was so beautiful.”

– **Bill E.**

“The space is spectacular. Where else are you going to get married downtown Chicago in a 19th century mansion on lake Michigan for as little as they charge? Truly a hidden gem. Plus the historic artifacts made it all the more memorable!”

– **Stuart S.**
