WHAT TO EXPECT

I am so excited to capture such an important event that you both cherish forever...

There is something unique to every wedding. Our goal is to effortlessly capture all that is unique and special about your wedding day. We will work closely with you to create a complete and authentic story through timeless, breathtaking visuals.

Before Your Wedding Day

Through our pre-wedding consultations leading up to your wedding day, we will get to know you both and develop an understanding of your wants and needs. This will guide us as we work out all the details and develop your wedding visuals timeline. Some of these details include hair and makeup, getting dressed, first looks, family portraits, bridal party, the ceremony, and more!

Having this timeline ensures that we capture every moment so you can relax, enjoy each other, and be fully present for some of the most important memories of your life.

On Your Wedding Day

We will arrive at the scheduled location approximately 30-45 minutes before you begin getting ready. This will allow us to find space to set up, check in with you, and prepare all of our equipment for the day.

Take a look at our Wedding Day Tips on the next page to help you prepare.

After The Wedding

Your visuals will be ready in 2-4 weeks after your wedding day. The files will be delivered via Google Drive to the email provided during booking, unless otherwise requested.

This link is yours to share with friends and family. We will call you a couple of days after you receive this link to get feedback and see if there are any changes you would like to be made.

WEDDING DAY TIPS

Cut Yourself Some Slack

Your wedding day is going to be very busy regardless of planning. Everything is going to take a little longer than you think, and that's okay. That said, it is important to schedule in some down time throughout the day so you can stop for 10-15 minutes, rest, re-hydrate, and be ready for the next planned event!

The Background Counts

Keep in mind little things that make a big difference in the background that could possibly be seen your visuals:

- Drinking Glasses/Reusable Water Bottles vs. Plastic Water Bottles
- Special Hangers/Satin Cushion Hangers vs. Wire/Plastic Hangers
- Hide away anything you absolutely do not want in your visuals
- Keep your items as organized as possible (we'll shoot around the rest!)

All About the Details

Have all your details and accessories ready for us to photograph when we arrive. Small details are best kept together in a box. This ensure that we are confident that we have all the items you wish to be in your visuals.

- | | | | |
|---------------|---------------|---------------|---------------|
| - Dress/Veil | - Suit/Tie | - Invitations | - Shoes/Socks |
| - Jewelry | - Boutonniere | - Cuff Links | - Vow Book |
| - All 3 Rings | - Shoes/Socks | - Heirlooms | - Invitations |

Let's Talk Travel

If your wedding day is taking place in more than one location, think about whether or not you want the moments in between to be captured or if you want to use this time to take a break and just enjoy the company. Let us know if you would like us to come along so we can coordinate travel.

Ask your guests to go unplugged during the ceremony and first dance

Please ask your guest to put their phones away during the ceremony. This will allow us to capture every moment in the best light possible while allowing us the option to move around to make your visual more dynamic.

Check with your venues

Please let us know of any venue rules and regulations regarding flashes or areas in which we are not allowed ahead of time. When consulting with your venue, it is a great idea to ask if they have any special or unique spots available that they would recommend.
