

WEDDINGS & *Social Events*

The background is a solid pink color with several stylized fireworks exploding in white. The fireworks are represented by numerous thin, radiating lines of varying lengths, creating a starburst effect. There are four main firework bursts: one in the top left, one in the top right, one in the bottom right, and a larger one in the bottom left that also features a long, sweeping white arc trailing upwards and to the right.

AERIAL *fireworks*

Together we create unforgettable moments!

QUANTITY, TIMING AND INTENSITY

Before choosing a package of aerial fireworks it is important that you know that the amount of effects distributed in certain time determines the intensity of the display.

The shorter the time, the greater the intensity because the effects are detonated faster one from another.
