"We hired Lisa and Blue Diamond for a number of things during our wedding celebration. Lisa was amazing at helping us bring our dream wedding to life - helping us at every appointment, giving her creative eye to the decor and setup, and assisting us in selecting great vendors for our needs. We also worked with them for photo booth, DJ, and lighting during the event. I couldn't imagine having better service and a better team to work with. I HIGHLY recommend Blue Diamond for party planning or wedding planning!"

"Working with Blue Diamond events was truly awesome! They provided both the DJ services, as well as a photo booth for our wedding. Two weeks later, our family and friends keep saying how great everything was. People were on the dance floor all night, and the photo booth was packed the whole time it was open! Even the older crowd got into it and had fun. I love that we now have those photos to enjoy forever. Jonathan was great to work with. He responds to emails quickly and knows his stuff. He accepted song requests the whole night, and worked with us through the reception to have everything happen the way we wanted. We highly recommend Blue Diamond Events!"

ABOUT OUR PRO + ELITE HOST DJ/MC SERVICES

Create an unforgettable atmosphere with Blue Diamond Events' premier DJ, MC, and lighting services.

Our expert DJs curate the perfect soundtrack for your wedding or event, seamlessly blending music that keeps the energy high and the dance floor packed. Our team ensure smooth transitions, engaging guests and guiding the flow of your celebration with confidence and charisma.

"DJ Jonathan was absolutely amazing! He did a great job at announcing the wedding party and different events throughout the reception. The music mix was second to none! We had so many compliments on how the music never had a lull, people were partying til the lights came on! We also requested cocktail hour music and he created the perfect ambiance! I would absolutely recommend using Blue Diamond's services. They were great throughout the entire process. We had lots of questions before, we made a decision on who we would use for a DJ. They made the whole process very easy. Our guests are still talking about how amazing the DJ was, even two months after the wedding!"
