Packages Include:

Painting During Event

When you book a live painting with Art By Audie, you're inviting an artist who invests deeply in your event. Audie arrives two hours early to set up and stays at least 8-10 hours, ensuring every detail of your special day is captured. Throughout the event, Audie engages with guests, shares the creative process, and, at the end of the night, offers the couple a heartfelt "first look" at their painting. It's all about creating a memorable experience that extends beyond the canvas.

Studio Time

Each painting that leaves Art By Audie's studio has been crafted with dedication and care, often requiring far more than the estimated 15-30 hours of studio time. Audie works until every detail aligns with the vision, ensuring the piece is something both the couple and Audie can take pride in. The painting is only complete when it reaches a level of perfection that makes it truly unforgettable.

Turnaround & Details

Each painting from Art By Audie takes approximately 4 weeks to complete, with shipping included in the price and arranged after the completion period. For local clients, Audie can even make a personal delivery, ensuring your custom piece arrives with the utmost care. Whether you envision added family members, pets, or a touch of fantasy like your favorite cartoon characters or an out-of-this-world setting, Audie will create a one-of-a-kind artwork inspired by your imagination.
