Kind Words

I don't think there are enough words to describe how amazing Megan is! She really took so much stress off of me during the entire planning process and I am forever grateful! Megan is the definition of professional and organized. She was there every step of the way through the planning process, attended every meeting and made sure that no detail was missed at the ceremony or reception. On the day of Megan was always right there making sure I had everything and that I was feeling good! She handled all the communication with the vendors and just made the whole day run so so smoothly. I don't know what I would have done without Megan!! She is truly the best and I am so glad to have been able to work with her!

Meet Megan

Weddings carry a certain magic for me. The design elements and orchestrated details, paired with the genuine excitement and personal moments still feel as fresh and vibrant as they did at my first event.

Over the last decade, I have held multiple roles within the events industry. I have in depth experience in venue management, catering, and florals, allowing me to best guide my clients throughout the planning process.

This is not a side hustle; at TEC we live and breathe events. We know how much you invest in your wedding, and my team and I are committed to you enjoying the process to its fullest. We understand what it means to put together such an important celebration as you start this next chapter with your partner, and we don't take the task lightly. Our expertise and strong network of quality vendors create a foundation for a seamless experience.

We celebrate all love, and can't wait to hear more about you and your big day!
