A commitment to personal service is what sets me apart from other photographers. I am the photographer who captures every smile. I edit all of your images personally, and I even hand deliver your photos when I can. I hold your hand every step of the way, and am always here to help — be it questions about wedding planning or suggestions for dinner reservations for out-of-town clients.

Every wedding I photograph *always includes the following*:

- An extensive pre-shoot consultation, during which I work with you to develop a shot list and timeline
- Photo shoot location visits ahead of your session to assess the lighting
- Editing and color correction for all images, with an average of three hours of post-production work for every single hour of photography
- On average, 75 photos delivered for every hour of event photography, and 50-75 photos delivered for every hour of portraiture
- High-resolution image files with personal-use print release; no watermarks ever
- A black and white, high-resolution duplicate of each color image
- An online, password-protected gallery to conveniently share your photos and order prints
- The best 20+ images are ready to view within 48 hours and will be posted online for you to share
- Final delivery of all edited images within five weeks' time
- All images are delivered in JPG format via digital download, and are sized both for print and for the web

I offer both an **hourly rate**, and three special packages:

- For small weddings requiring only a few hours of coverage, my rate is \$450 per hour with a two-hour minimum
- For events of any type — including rehearsal dinner coverage, mehndi ceremonies, bridal showers, birthdays, or any other type of family event — my rate is \$300 per hour with a two-hour minimum
