

A+K PHOTOGRAPHY

Celebrate wildly. Love deeply. Your story, your way.

2026–2027 Wedding Collections

This is your day.

We're here to help you live it fully and remember it vividly.

We're Alexis (she/her) + Katrina (she/her). Two photographers who believe your wedding should feel like you from start to finish. Our approach blends candid storytelling with intentional portraits, so you get images that are beautiful, real, and true to the emotions of the day.

When we're not photographing weddings, we're usually at home in Mount Vernon with our zoo (three dogs, four cats, a bearded dragon, and a 9-year-old), trying new recipes, or playing board games with friends. We're big on laughter, good conversation, and making people feel at ease; the same energy we bring to every wedding day.

Unapologetically Inclusive

Your love, your way – always.

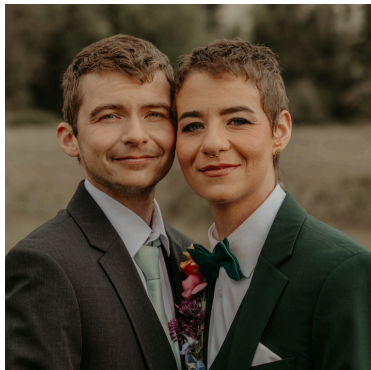

We celebrate love in all its forms and believe every couple deserves to feel completely comfortable in front of our cameras.

From the very first email to the final gallery, we create space for you to be yourselves, without judgment, without limits, and without pressure to fit into traditions that don't feel right for you.

Whether you're planning a big wedding, an intimate elopement, or something entirely unique, we'll capture it in a way that reflects who you are and what matters most to you.

"We really appreciated working with such a queer-positive business to capture our photos."

-Bela (they/them) + Daniela (she/her)

Our Approach

Photography with Heart + Intention

From the moment you book to the day you open your gallery, we're here to make sure your wedding feels effortless and true to you.

Stress-Free Timeline

We help you build a photography centered schedule that keeps things running smoothly, leaves space for the unexpected, and lets you be fully present in your day.

Real Moments First

We focus on authentic emotion and natural interactions, guiding you just enough so your images feel alive, comfortable, and completely you.

Your Story Above All

Every choice we make, from how we direct portraits to how we document candid, is about creating a gallery that feels like your wedding, not someone else's.

What to Expect

Your Experience with Us

From the first email to your final gallery, here's how we make sure your wedding photography is easy, fun, and completely you.

Booking Made Simple

Once you've chosen your collection, we'll send over your contract and invoice. Your date is officially reserved once your contract is signed and your retainer is paid.

Your Engagement Session

If your package includes an engagement session, we'll coordinate the location, time, and vibe that fits your personalities. It's a great chance to get comfortable in front of the camera before the big day.

Planning Together

We'll help build a timeline that balances candid, portraits, and all the in-between moments. We're here for questions, vendor recommendations, and ideas along the way.

Wedding Day!

We arrive early, cameras in hand, ready to capture every detail and emotion as it unfolds. We blend in when needed and step up when direction is helpful, so you can relax and enjoy your day.

Sneak Peeks + Delivery

A few days after your wedding, you'll receive sneak peeks to relive the excitement. Your full gallery will be delivered within the timeframe listed in your package.

Printing + Albums

From albums to wall art, you can order high-quality keepsakes directly from your gallery so your favorite images can live off-screen and in your hands.
