OR

Hosts may put a cap on drink price (For Example: no drinks above \$25)

OR

Assign a \$ amount to the total bar tab (For Example: keep the total bar tab below \$3000)

OR

Limit the types of drinks offered (For Example: host only soda, beer, and wine by the glass)

OR

Guests pay for their own individual drinks, also known as "Cash & Carry"

OR

A combination of the previous options and/or most other stipulations you can think of (For Example: host drinks of \$25 or less, 2 drinks per person max, cap bar tab at \$2,000 and then switch to "Cash & Carry")

~ Any drinks ordered by guest, that do not fall under the stipulations set by the host, will be "Cash & Carry", meaning guests will pay for their own drinks. ~
