#### On-Site Headshot Studio

Half day / full day

**\$2,450 / \$3,950**

We bring the studio to your event. Staffed, studio-lit headshots with instant email delivery. Branding options available. Bundle with coverage for a combined rate.

### Worked example: 4-hour corporate mixer + headshot station

|                                                                    |                |
|--------------------------------------------------------------------|----------------|
| Half Day event coverage (up to 4 hours, one photographer)          | \$1,195        |
| Headshot station, half day (staffed, studio-lit, instant delivery) | \$2,450        |
| Private gallery, commercial license, 48-hour delivery              | Included       |
| <b>Total</b>                                                       | <b>\$3,645</b> |

Skip the station and the same mixer is \$1,195. An 8-hour conference day without a station is \$1,980. Bundling the station with coverage brings the combined number below booking the two separately; the exact discount is in your written quote.

### Booking terms

- Multi-day conventions are quoted custom (shooters, headshot hours, daily delivery). Per-day rates typically improve as days increase.
- Hours on site matter most, then shooter count, then turnaround. Share the run-of-show and headcount for an exact quote, usually the same day.
